RE: Two Lake Collaborative Sewer Authority – Search Grant

Dear Mr. Meister:

We reviewed the application that the Authority submitted for a Search grant to determine the feasibility of the development and construction of a wastewater collection system around Bear Lake and Portage Lake. It appears the authority meets all eligibility requirements for funding from Rural Development. For planning purposes only, the level of financial assistance we will consider is a **grant of \$30,000**. If these terms are not acceptable or there are significant changes to your application, please notify this office immediately in writing.

This is not a commitment or approval of any funds from RUS. These terms or amounts could change if the information in the application is revised, updated or if RUS program conditions change.

We expect loan funds will be available for this project within four to six months. If the Authority no longer wishes to pursue funding of this project through Rural Development, please notify me in writing.

If you have any questions, please do not hesitate to contact me in our office at (231) 486-2532.

Sincerely,

Blake Smith
